 **HIGH PERFORMANCE AVIATION, LLC** Customized Flight Training for Aircraft Owners

FAA Safety Team - FFAST

- Mission
 - Improve Aviation Safety
 - Training
 - Outreach
 - Education
 - Industry Alliances
 - Continual Growth
 - Positive Safety Culture

© 2011 High Performance Aviation, LLC

 **HIGH PERFORMANCE AVIATION, LLC** Customized Flight Training for Aircraft Owners

FAA Requirements for Recurrent Training

- Flight Review (BFR)
 - 1 hr. flight training
 - 1 hr. ground training
 - Every 24 calendar months

© 2011 High Performance Aviation, LLC

Common Scenario

A pilot does some recreational flying a few times a year, and gets a signoff every 2 years for a Flight Review.

Do you think this is safe?

© 2011 High Performance Aviation, LLC

**HIGH PERFORMANCE
AVIATION, LLC**

Customized Flight Training for Aircraft Owners

Original WINGS Program

- Award-based
- 20 Phases
- Can be used lieu of a Flight Review (61.56(1))
- Old Requirements:
 - 1 Safety Seminar
 - 3 Hours training

© 2011 High Performance Aviation, LLC

Scenario: Old WINGS Program

1. "Buzz" the pilot participated in the old WINGS program
2. Buzz attended a safety seminar.
3. He logs 3 hours with his instructor:
 - He is proud to hold +/- 500 ft. on his steep turns
 - Under the hood, he maintained +/- 180° on his heading & +/- 90° bank
 - He demonstrated his stall recovery as he turned final
 - Then he finished the flight by showing his instructor how to buzz the field like he did back in his crop dusting days
 - He still thinks that the Houston Class B is called a TCA

Buzz has completed another phase of WINGS, even though his piloting skills are virtually non-existent. This counts as a Flight Review, and he is now legal to continue flying.

Do you think this is safe?

© 2011 High Performance Aviation, LLC

Revised WINGS Program

WINGS - Pilot Proficiency Program

To assist in your understanding of the new WINGS - Pilot Proficiency Program, and to help you get started, we have prepared a brief and informative tutorial. Please [click here](#) to view this on-line help tutorial.

Welcome to The WINGS - Pilot Proficiency Program!

The WINGS - Pilot Proficiency Program is designed to help each pilot construct an educational curriculum suitable for their unique flight requirements. It encourages pilots to continue their aviation educational pursuits and requires education, review, and flight proficiency in the Areas of Operation found in current Practical Test Standards (PTS), that correspond with the leading accident causal factors.

Incentives for Participation: Added level of safety and professionalism that is obtained through adoption of a consistent recurrent training program. [click here](#)

Who may Participate? All pilots holding a U.S. pilot certificate and a current medical certificate when required may participate in the Basic Phase. [click here](#)

How to Get Started

[Click here](#) to set your WINGS - Pilot Proficiency Program airman profile. If you would like further information on this program please contact your local FAAS Team Representative or FAAS Team Program Manager.

Begin Participating Now!

WINGS Training Provider Participation Information

 **HIGH PERFORMANCE AVIATION, LLC** Customized Flight Training for Aircraft Owners

New WINGS Program

- Enhancements:
 - Web-Based
 - User Friendly
 - Customized for You
 - Online Training
 - Track Progress
 - Proficiency-Based (PTS)
 - No time requirement... Just proficiency
 - Core training a result of causal factors in aircraft accidents

FAASafety.gov Account Registration

Welcome to FAASafety.gov! When you register on FAASafety.gov, you can participate in many of FAASafety.gov's online services. **Registration is free!** By completing this sign up process, you will be able to:

- Help us save Tax dollars by having safety information sent to your email address.
- Take on-line safety courses
- Participate in the WINGS – Pilot Proficiency Program
- Participate in the AMT Awards Program

Begin the registration process by **entering your email address below**. Please use an email address you check frequently. We do not make your email address available to others. You should indicate if you are a certificated airman. Doing so will allow the FAASafety.gov system to gather your current ratings and certificates, and tie them to your FAASafety.gov account. This will simplify participation in the WINGS – Pilot Proficiency Program.

A temporary password will be sent to the email address you register with; this allows us to confirm your registration. The first time you log in, you will be required to change your password to something you prefer.

Don't have an email address? If you do not have an email address, there are several freely available web based services. [Click here](#) to see a list of free providers.

Register for FAASafety.gov Services * Required

* **Email Address**
Used to login to your new FAASafety.gov account.

* **Do You Hold a Current Airman Certificate?** Yes No

Federal Aviation Administration

Courses, Seminars & Activities Pilots Maintenance Hangar Resources

FAASafety.gov Account Registration

To join your FAASafety.gov registration to your airman certificate information, enter your last name and any of your certificate numbers in the fields below. The system will attempt to locate your airman information and create an FAASafety.gov account for you. **If you do not wish to register with your certificate number, you may still proceed with regular registration by clicking here.** FAASafety.gov is fully functional for non-airmen registrations.

Certificated Airman Registration * Required

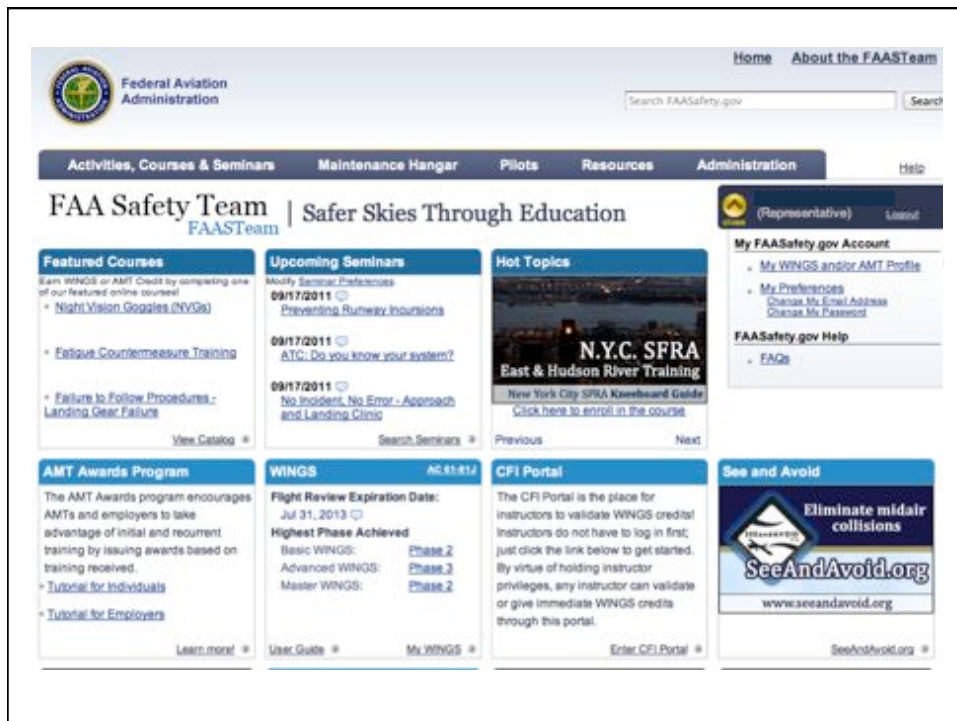

* **Your Last Name**
Your last name as it appears on any of your certificates.

* **Current Certificate Number**
The certificate number matching your last name above.

Example Certificate

Login at www.faasafety.gov

WINGS Participation

Thank you for choosing to participate in the WINGS program.

Categories, Classes, & Certificates

You may change your Certificates selections. These selections are used to assist in searching for Accredited Activities that interest you. Selecting the certificates you hold will also help narrow the course activities shown on subsequent screens as well.

We recommend that all pilots select appropriate entries in the Category/Class and Certificate boxes.

Aircraft Categories and Classes / <input type="checkbox"/> all	Certificates / <input type="checkbox"/> all
<input checked="" type="checkbox"/> Airplane Single Engine Land	<input checked="" type="checkbox"/> Airline Transport Pilot
<input checked="" type="checkbox"/> Airplane Single Engine Sea	<input checked="" type="checkbox"/> Authorized Instructor
<input checked="" type="checkbox"/> Airplane Multiengine Land	<input checked="" type="checkbox"/> Commercial Pilot
<input type="checkbox"/> Airplane Multiengine Sea	<input checked="" type="checkbox"/> Flight Instructor
<input type="checkbox"/> Glider	<input checked="" type="checkbox"/> Instrument Rating
<input type="checkbox"/> Lighter-than-Air Airship	<input checked="" type="checkbox"/> Private Pilot
<input type="checkbox"/> Lighter-than-Air Balloon	<input checked="" type="checkbox"/> Recreational Pilot
<input type="checkbox"/> Powered Parachute Land	<input checked="" type="checkbox"/> Sport Pilot
<input type="checkbox"/> Powered Parachute Sea	<input checked="" type="checkbox"/> Student Pilot

Flight Review Date

As you participate in the WINGS program, your flight review date will be updated each time you earn enough credits to complete the Basic phase. However, if you have a more recently earned flight review date, enter it below.

Last Flight Review Date

Type this date as MM/DD/YYYY, or use the date selector by clicking on the icon to the right.

Flight Review Effective: 03/25/2010
 Flight Review Expires: 03/31/2012
 Based on: Airman Provided Information

Old WINGS Program Participation

We want to take this opportunity to acknowledge your participation in the old WINGS Pilot Proficiency Award Program, which expired on December 31, 2007. If you participated, please select the highest Phase you were awarded.

Enhance your aviation training experience by enrolling in one of our online training courses. Courses can be completed in multiple sessions, so don't worry if you don't have time to finish a course today!

You may "Preview" a course at any time, before or after completing a course. In addition, you may re-take a course 90 days after the previous completion, and receive additional WINGS or AMT credit for that course. Most courses are free. However, if there is a cost, it will be shown by displaying "Cost" symbol in the COST column.

This page is divided into 3 sections to show the courses you have in progress, those that are available, and those that you have already completed. This page also features the credit applicability of all courses to help you identify the courses that apply to your current phase of WINGS.

The FAASTeam sponsors thousands of aviation safety seminars throughout the country each year. These interesting and informative seminars include a variety of important safety topics designed to reduce risk and increase the level of safety in aviation operations.

This page also features the credit applicability of all seminars to help you identify those that apply to your current phase of WINGS.

Most courses are free. However, if there is a cost, it will be shown by displaying "Cost" symbol in the COST column.

Don't forget - the FAASTeam has gone mobile! Find a seminar in your pocket! Download "Event Search" in the App Store for iPhone or in the Marketplace for Android. (Note: the FAA receives no money from these independent applications.)

To search for seminars, specify your search parameters below and press "Search".

Team Member Rewards

FAASafety Industry Members have discovered the importance of pilots or mechanics like you who have earned a Phase of WINGS or an AMT Award. The desire to be a safer and more proficient pilot or mechanic is a significant step toward improved aviation safety. FAASafety Industry Members have joined in the new **Team Member Rewards** program to reward and recognize this step. Your participation in the voluntary, but highly recommended, **WINGS - Pilot Proficiency Program** or the William (Bill) O'Brien Aviation Maintenance Technician Awards Program is now more valuable than ever.

The FAA Safety Team expresses appreciation to FAASafety Industry Members who offer unique incentives to pilots and mechanics who are truly interested in aviation safety.

We especially acknowledge **Avenco Insurance Company**, as the cornerstone of the new **Team Member Rewards** program, for providing airmen with the official WINGS Program lapel pin. Three distinctive pins are available as appropriate to the Level of WINGS earned. We also acknowledge PAMA as the issuer of the special decal for earning an AMT Award.

Note that while the FAASafety Team invites all Industry Members to participate in the **Team Member Rewards** program, such participation is purely voluntary.

When you have earned a phase of WINGS or an AMT Award, a check box will appear next to the Team Member(s) listed, so that you can choose to send your contact information (name, address, email address, etc.) to Team Members.

Team Member	Reward Information	Select Rewards
Avenco	Official WINGS Lapel Pin Date Requested: 12/04/2009	<input type="checkbox"/> WINGS
PAMA	Decal Date Requested: never	

CFI Portal

The CFI Portal is the place for instructors to validate WINGS credits! Instructors do not have to log in first; just click the link below to get started. By virtue of holding instructor privileges, any instructor can validate or give immediate WINGS credits through this portal.

CFI Instructor Tools

[List of Credits Validated](#)

This page presents a list of all credits "Completed" or "Requested Not Validated" by the logged in instructor. Instructors may view and print this validation history to demonstrate their participation in the program. They may present this documentation to substantiate the requirements for Flight Instructor renewal in accordance with [AC 61-91j](#). This report also indicates whether they conducted the activity, or validated it for another instructor. Authorized users also have the ability to search and view credits validated by any instructor.

[Activity Validation - Give Credit](#)

The [Give Credit](#) capability is used by a certified instructor to give an airman credit for their flight activity. Although strongly recommended, the instructor does not need an account on FAASafety.gov to use this system to give credit. The instructor simply provides their name and certificate number, along with a telephone number in case we have a question about the credit being given. Remember that the airman to whom credit is being given must have a standard FAASafety.gov account with an email address or a special FAASafety.gov account created using the procedure above.
